PROFILE

Digital marketing trainee in the Digital Egypt Pioneers Initiative (DEPI), specialising in AI-generated video and short-form creative content. I build concept campaigns for Egyptian brands: AI video ads, reels, SOSTAC marketing plans and carousels, with scripts in Egyptian Arabic and English. Looking for an internship or junior role in content, social media or creative production.

KEY STRENGTHS

- **AI video production:** concept-to-final AI commercials and reels (script, visual direction, voice-over, edit in CapCut Pro).
- **Egyptian-Arabic copywriting:** colloquial hooks and scripts rooted in local culture.
- **Strategy foundations:** SOSTAC planning, audience research, content calendars, Meta Ads and analytics basics (learning).

SELECTED PROJECTS (PORTFOLIO AND CONCEPT WORK)

TAKAA Energy Drink | AI Commercial & Short-form Video
- Created an AI-assisted pop-reveal reel and brand launch concept for vertical 9:16 platforms.
- Directed visuals, pacing and Egyptian-Arabic messaging for fast, platform-native storytelling.

Baba Geh, Buffalo Burger, Talabat Egypt, Spiro Spathis | AI Commercial Concepts
- Produced 40 to 105-second AI-assisted commercial concepts mixing comedy, family storytelling and food visuals.
- Wrote scene directions and scripts, edited in CapCut Pro, and cut short versions for reels.

V7 Cream Soda | Campaign Storytelling & Brand Deck
- Built a multi-era summer campaign idea around generational moments, with a scene-by-scene structure and visual system.

QAIM Menswear | Content Strategy & Carousels
- Developed a SOSTAC plan, Instagram architecture and 3 interactive carousel routes, plus AI voice-over scripts.

H&M Egypt (coursework) | Market Research & Digital Strategy
- Researched the Egyptian e-commerce market and competitors, and wrote a digital growth and content strategy.

Most projects are self-initiated concept work, labelled as such in my portfolio.
